More dialogue and peace – not more war!

The drive toward war is intensifying in Sweden and around the world. Increasing amounts of public funding are being allocated to military rearmament, while welfare systems are being cut back. With Sweden's NATO membership and the DCA agreement with the United States, the risk of Sweden being drawn into war has grown.

Israel's occupation of Palestine has now developed into a full-scale genocide in Gaza. At the same time, Israeli attacks continue in the West Bank and against Lebanon, Syria, and Iran — all with the support of the United States and the Western world. The USA's acts of war against Venezuela constitute a clear violation of international law. These attacks are part of an imperial strategy to overthrow the country's government and take control of its natural resources.

The U.S. illegal blockade of Cuba, along with its threats against Iran, Colombia, and Greenland, are further examples of how the USA uses force to maintain its dominance in the global market. This dominance is now being challenged by the BRICS countries. Russia's war of aggression against Ukraine has been ongoing for four years and is a violation of international law. The conflict cannot be resolved by the United States and other NATO countries supplying Ukraine with more weapons.

If the current conflicts continue, the risk increases that more countries will be drawn in, potentially leading to nuclear war. This must not happen. The demand must therefore be for negotiations and disarmament instead of further escalation and militarization. The goal must be to achieve ceasefires in these conflicts.

Another world is possible!

Inequality is increasing in Swedish society as well as across the globe. ***The pursuit of profit by a small minority is prioritized over the needs of people and the environment.*** Around the world, we see policies that fuel conflict over the planet's resources and assets, leading to imperialist wars. There is sufficient knowledge and capacity to prioritize the needs of people and the environment. We fight for a world built on solidarity among people, living in harmony with the environment — instead of a society based on competition and imperial domination.

Sweden's NATO membership and the DCA agreement with the USA risk sacrificing our children and grandchildren in imperialist wars around the world. ***What is needed instead is an active anti-imperialist peace movement.***

Join this year's Fredsloppet events across Sweden for peace, non-alignment, and solidarity! Another world is possible.

- ★ Yes to non-alignment and a nuclear-free Sweden — No to NATO and the DCA agreement
- ★ End the occupation of Palestine — Boycott Israel
- ★ End the invasion of Ukraine — Diplomacy instead of war in Ukraine
- ★ Respect international law, uphold UN resolutions — Lift the U.S. blockade of Cuba
- ★ No to USA's wars.
